

Would you like to show people the incredible life story of one of the most famous Nobel Peace Prize winners ? The **Albert Schweitzer House in Gunsbach** has put together a colourful travelling exhibition for you, revealing the many facets of Dr. Schweitzer's life.

Mounted on roll-ups, very easy to deploy, bilingual and richly based on the museum's archives, it adapts to different types of spaces and will satisfy the curiosity of young and old (from 8 years upwards).

It is possible to hire all or part of the exhibition, depending on your interests and the space constraints of the venue you have available.

Please note that the rental price remains the same whatever option you choose.
